

## ***Medical Decision Making and MDM Policy & Practice Reviewers, 2017***

The editor-in-chief, deputy editor, associate editors, editorial board, and staff of *Medical Decision Making* and *MDM Policy & Practice*, the official journals of the Society for Medical Decision Making, acknowledge and thank the following people for their assistance in reviewing manuscripts during 2017.

The journals' success rests in large measure on the quality and promptness of the reviews it receives from these volunteer reviewers. The thorough and detailed expert evaluation of scientific manuscripts submitted to *MDM* and *MDM P&P* is an essential contribution to the success and influence of the MDM journals—and we are grateful to all who contribute their time and knowledge.

Reviewer names were taken from *MDM's* ScholarOne Manuscripts Web site as of January 22, 2018. Reviewers who wish to update their profile information may do so by logging in to their reviewer accounts at: <http://mc.manuscriptcentral.com/mdm>.

To learn more about reviewing manuscripts for the MDM journals, please see: <http://mdm.uic.edu/peer-review-process>.
